DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed on August 26th, 2003 have been fully considered but they are not persuasive. The applicant argues that the applicant has amended claim 6 to recite that the outer container is "in fluid communication with the inner container" and that Fujitani does not disclose a tank being used for storing hydrogen in a liquid form. The examiner disagrees. Nowhere in the specifications does the applicant state that the outer container is "in fluid communication with the inner container".

Claim Rejections - 35 USC § 112

2. Claim 6 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Nowhere in the specifications does the applicant state that the outer container is "in fluid communication with the inner container".

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
